Introduction

Welcome my dear fellow word-sleuths. This puzzle book is your chance to have a little fun with the serious words of the healthcare world. Here I have assembled many medical specialties, and topics of interest to all healthcare practitioners & students, into one book & tried to have fun with them.

Each puzzle contains phrases, terms of art, and common words, that are essential to each topic. Some of the words are common to the healthcare profession in general, and some are very specific to the healthcare specialty represented in each puzzle. Some contain phrases that have been condensed down to their familiar letters, such as “cardio-pulmonary resuscitation,” which is commonly referred to as “CPR.” Also, I like to use a felt-tip highlighter-pen when doing this type of puzzle. This keeps the puzzle neat, clean, & easy to read.

Word-search puzzle are a simple and quick way to enjoy a few minutes away from you studies and work.

I enjoyed putting this book together, so I hope you will have fun with it also. ☺

How to Solve Word-Search Puzzles

Word-search puzzles have words hidden among a random group of letters. The challenge is to find each word that is hidden among the random letters.

The words you are searching for might be forwards or backwards, vertical or horizontal, or diagonal across the puzzle. You need not find the words in any particular order.

In each puzzle you are given a list of words that are hidden within the puzzle. When you find a word in the puzzle, you can circle the word within the puzzle, or use a colored highlighting pen. Then cross out the word from the list.
1. Academic Designations

Words to find:

- ACLS  •  ANP  •  AORN  •  BCLS  •  BSN  •  CCRN

- PALS  •  PHD  •  PNP  •  RN

A ball had passed between my body and the right arm which supported him, cutting through the sleeve and passing through his chest from shoulder to shoulder. There was no more to be done for him and I left him to his rest. I have never mended that hole in my sleeve. I wonder if a soldier ever does mend a bullet hole in his coat?

Clara Barton
